Notes to the Financial Report

BORAL LIMITED AND CONTROLLED ENTITIES

1. ACCOUNTING POLICIES

Boral Limited is a company domiciled in Australia. The consolidated half-year financial report of Boral Limited as at and for the half-year ended 31 December 2018 comprises Boral Limited and its controlled entities (the "Group").

(a) Basis of Preparation

The half-year consolidated financial report is a general purpose financial report which has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the Corporations Act 2001. The financial report also complies with IAS 34 *Interim Financial Reporting*.

The half-year financial report does not include full note disclosures of the type normally included in an annual financial report. As a result the half-year financial report should be read in conjunction with the 30 June 2018 Annual Financial Report and any public announcements by Boral Limited and its controlled entities during the half-year in accordance with continuous disclosure obligations under the Corporations Act 2001.

The half-year financial report was authorised for issue by the Directors on 25 February 2019.

The half-year financial report is presented in Australian dollars.

(b) Significant Accounting Policies

The accounting policies have been consistently applied by each entity in the consolidated entity and are consistent with those applied in the 30 June 2018 Annual Financial Report, except as stated in Note 1(c). The half-year financial report has been prepared on the basis of historical cost, except where assets and liabilities are stated at their fair values in accordance with relevant accounting policies.

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis.

(c) Changes in Accounting Policies

Adoption of new and revised accounting standards

The Group has adopted all new and amended Australian Accounting Standards and Australian Accounting Standards Board (AASB) interpretations that are mandatory for the current reporting period and relevant to the Group. Adoption of these standards and interpretations has not resulted in any material changes to the Group's half-year financial report.

Effective 1 July 2018, the Group adopted AASB 15 Revenue from Contracts with Customers. The Group utilised the cumulative effect method on the initial application of the standard, and therefore has not applied the requirements of AASB 15 to the comparative period presented in this report. The net transition impact was recorded as a reduction in retained earnings of \$2.0 million, and is disclosed in the Statement of Changes in Equity.

The implementation of this standard did not have a significant impact on the revenue recognition practice of the Group. Further information with respect to the impact of Boral's accounting for revenue is included in Note 1D of the 30 June 2018 Annual Financial Report.

(d) Comparative Figures

Where necessary to facilitate comparison, comparative figures have been restated to conform with changes in presentation in the current financial year. In addition, comparative figures have been restated to reflect the treatment of Denver Construction Materials and US Block as discontinued operations.

(e) Rounding of Amounts

Unless otherwise expressly stated, amounts have been rounded off to the nearest whole number of millions of dollars and one place of decimals representing hundreds of thousands of dollars in accordance with ASIC Corporations Instrument 2016/191, dated 24 March 2016. Amounts shown as "-" represent zero amounts and amounts less than \$50,000 which have been rounded down.

Notes to the Financial Report

BORAL LIMITED AND CONTROLLED ENTITIES

1. ACCOUNTING POLICIES (continued)

(f) Accounting policies applied from 1 July 2018

Revenue recognition

Revenue from sale of goods

Revenue from the sale of goods, such as quarry product, concrete, cement, flyash and building products, is recognised at the point in time the customer obtains control of the goods. This is typically at the time of delivery to the customer.

Revenue from contracting businesses

Revenue from contracting businesses, such as asphalt and concrete placing, is included in sale of goods and is recognised progressively over the period of time the performance obligation is fulfilled and the customer obtains the control of the goods being provided in the contract, with the Group having a right to payment for performance to date.

The Group predominantly uses the output method to determine the amount of revenue to recognise in a given period.

When estimating the transaction price, variable consideration is considered, which typically relates to claims or variations submitted in connection with the performance of a contract. Assumptions are made in order to determine the amount of variable consideration that can be recognised, including consideration of whether the variable consideration is constrained. Claims and variations are included to the extent they are approved, or if not approved, are estimated whilst also considering the constraint requirement.

Revenue from rendering of services

Revenue from the rendering of services, which is predominantly in Flyash, is allocated across each service or performance obligation based on their stand-alone selling price, and recognised as the service or performance obligation is performed.

Revenue from the sale of land

Revenue from the sale of land is recognised at the point in time the customer obtains control of the land. This is typically at the point in time the customer obtains unrestricted access to the land which was sold. The revenue is measured at the transaction price agreed under the contract.

Bundling of performance obligations

Contracts with customers, particularly in concrete and asphalt, may contain revenue items for ancillary services such as mobilisation and demobilisation of plant, concrete testing, and other related services. These services are typically combined into the core performance obligation of delivering concrete, or the supply and lay of asphalt. On occasion, ancillary services may be deemed to have a stand-alone value to the customer, and are accounted for as a separate performance obligation.

2. SEGMENTS

An operating segment is a component of an entity that engages in business activities from which it may earn revenue and incur expenses, whose operating results are regularly reviewed by the Group's chief operating decision maker in order to effectively allocate Group resources and assess performance.

The Group has identified its operating segments based on the internal reports that are reviewed and used by the CEO and Managing Director in assessing performance and in determining the allocation of resources. The operating segments are identified by the Group based on consideration of the nature of the services provided as well as the geographical region. Discrete financial information about each of these operating businesses is reported to the CEO and Managing Director on a recurring basis.

The following summary describes the operations of the Group's reportable segments:

Boral Australia	- Construction Materials & Cement (comprising quarries, concrete, asphalt, transport, landfill, property, cement and concrete placing) and Building Products (comprising West Coast bricks, roofing, masonry and timber products).
USG Boral	- 50/50 joint venture between USG Corporation and Boral Limited responsible for the manufacture and sale of plasterboard and associated products.
Boral North America	- Flyash, stone, roofing, light building products, windows and 50% share of the Meridian Brick joint venture.
Discontinued Operations	- Denver construction materials and US block.
Unallocated	- Non-trading operations and unallocated corporate costs.

The major end use markets for Boral's products include residential and non-residential construction and the engineering and infrastructure markets.

Inter-segment pricing is determined on an arm's-length basis.

The Group has a large number of customers to which it provides products, with no single customer responsible for more than 10% of the Group's revenue.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

6. SIGNIFICANT ITEMS

December 2018

Net profit includes the following significant items, which relate to material transactions that are disclosed separately in order to better explain financial performance. Management considers significant items when assessing performance of the Group, and in order to provide a meaningful and consistent representation of the underlying performance of each operating segment and the Boral Group.

Significant items is not a defined performance measure in IFRS. The Company's definition of significant items may not be comparable with similarly titled performance measures and disclosures by other entities.

(i) Gain on disposal of Denver Construction Materials

On 1 July 2018, the Group sold the Denver Construction Materials business for cash proceeds of \$173.2 million, and generated a profit before tax of \$62.7 million.

(ii) Gain on disposal of Block

In November 2018, the Group sold the Block business for cash proceeds of \$210.1 million, and generated a profit before tax of \$2.5 million.

(iii) Headwaters integration costs

During the period, \$12.5 million of costs have been incurred on the integration of the Headwaters business into the Boral North America business, which forms part of the implementation costs of US\$90 million - \$100 million expected over financial years 2018 and 2019. The costs during the period predominantly relate to redundancies, consultant fees supporting the integration, integration of IT systems and closure costs arising from rationalisation of Stone plants.

(i) Headwaters integration costs

During the prior period, \$32.1 million of costs was incurred on the integration of the Headwaters business into the Boral North America business, which forms part of the implementation costs of US\$90 million - \$100 million expected over financial years 2018 and 2019. The costs during the period predominantly relate to redundancies, employee incentives implemented by Headwaters, consultant fees supporting the integration, integration of IT systems, brand consolidation, and asset impairments upon consolidation of the Boral and Headwaters concrete roofing business.

(ii) Waurm Ponds rehabilitation and closure costs

During the prior period, the organisation developed plans to improve our cement position in Victoria. This led to a reassessment of the expected end use of the Waurm Ponds cement facility, resulting in the recognition of a provision of \$23.8 million with respect to rehabilitation of the limestone quarry attached to the facility.

(iii) Reassessment of US tax balances

On 22 December 2017, a tax bill, H.R. 1, was enacted into US law. This triggered a revaluation of the carrying value of deferred tax balances associated with the Boral North America division, primarily as a result of a reduction in the federal tax rate from 35% to 21%.

The reduction in tax rate resulted in a net tax expense of A\$6.4 million, reflecting a reduction in the carrying value of:

- Deferred tax assets relating to US tax losses of A\$106.0 million; and
- Deferred tax liabilities relating to timing differences of A\$99.6 million.

In addition, the Group reassessed its US tax losses which have not been recognised on the Balance Sheet, given improved earnings following the acquisition of Headwaters Incorporated in May 2017. This led to a benefit of A\$6.4 million being recorded during the period.

The net impact of the above adjustments on income tax expense is nil.

14. CONTINGENT LIABILITIES

The Company has given to its bankers letters of responsibility in respect of accommodation provided from time to time by the banks to controlled entities.

A number of sites within the Group and its associates have been identified as contaminated, generally as a result of prior activities conducted at the sites, and review and appropriate implementation of clean-up requirements for these is ongoing. For sites where the requirements can be assessed, estimated clean-up costs have been expensed or provided for. For some sites, the requirements cannot be reliably assessed at this stage.

Certain entities within the Group are, from time to time, subject to various lawsuits, claims, regulatory investigations, and, on occasion, prosecution.

Consistent with other companies of the size and diversity of Boral, the Group is the subject of periodic information requests, investigations and audit activity by the Australian Taxation Office (ATO) and taxation authorities in other jurisdictions in which Boral operates.

The Group has considered all of the above claims and, where appropriate, sought independent advice and believes it holds appropriate provisions.

17. FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The fair value measurement principles adopted in this report are consistent with those applied in the Group's Annual Financial Report for the year ended 30 June 2018.

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for asset or liability that are not based on observable market data.

The following table presents the Group's financial assets and liabilities that are measured at Level 1 and Level 2 fair value:

	Level 1		Level 2

Independent Auditor's Review Report to the Members of Boral Limited

Report on the Half-year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Boral Limited.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Boral Limited is not in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 31 December 2018 and of its performance for the half-year ended on that date; and
- (ii) complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

The half-year financial report comprises:

- the consolidated Balance Sheet as at 31 December 2018;
- consolidated Income Statement and consolidated Statement of Comprehensive Income, consolidated Statement of Changes in Equity and consolidated Statement of Cash Flows for the half-year ended on that date;
- notes 1 to 17 comprising a summary of significant accounting policies and other explanatory information; and
- the Directors' Declaration.

The Group comprises Boral Limited (the Company) and the entities it controlled at the half year's end or from time to time during the half-year.

Responsibilities of the Directors for the Half-Year Financial Report

The Directors of the Company are responsible for:

- the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- for such internal control as the Directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the Half-year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's financial position as at 31 December 2018 and its performance for the half-year ended on that date; and complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As auditor of Boral Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
