Concrete Tiles

TECHNICAL DATA SHEET

Linea

Modern concrete tiles are made from sand and cement with a pigmented colour coat. This can replicate the appearance of a broad array of distinctive tile designs, while remaining relatively cost-effective.

Acoustic Performance
The density of tiles helps reduce external sound such as aircraft and road noise and, particularly, rain and hail.

Thermal Performance
Roof tiles can help you enjoy more comfortable living in summer and winter. The thermal mass of concrete materials when used correctly can result in advantageous insulation properties, in addition to considerations such as sarking and overall solar design.

Widest range of colours and profiles
With up to 6 profiles and 13 colours to choose from, there’s a tile that’s just right for your home!

Economical
Our concrete tiles are priced to suit most budgets.

20 Year Warranty*
Concrete tiles are suitable for all environments, including marine and bushfire prone areas.

Specification Notes
Roofing material shall be Boral Concrete Linea SA (Please specify a colour)
Sarking shall be Boral Sarking Extra Heavy Duty

Important Information: Product information contained in this leaflet is correct at the time of printing however is subject to change without notice. "20 year limited warranty that the Concrete Roof Tiles are manufactured in accordance with Australian Standards Association AS 2049. The warranty will not apply if the roof tiles a) have not been installed in accordance with AS 2050 b) have been affected by colour change, shade variation or glaze weathering, or c) have been damaged by roof traffic or chemical treatments, coating or cleaning or by falling items, pollution, storm or hurricane. Proof of purchase and other information required by Boral must be provided. See [www.boral.com.au/roofing-masonry-terms-quotation-supply](http://www.boral.com.au/roofing-masonry-terms-quotation-supply) for full terms and conditions. Some photos featured in this brochure are artist's impressions of how Boral roof tiles will look on a roof. Some images are computer generated. Please ensure you view a tile display before making a final decision. Colours shown are indicative only and should not be used for final selection. Colours are subject to change without notice. Check print date prior to product selection. Roof tile colours may vary in shades throughout the manufacturing process therefore it is important that roof tiles are blended consistently across the roof. At Boral Roofing, all tiles are manufactured to the requirements of Australian Standard 2049 Roof tiles. Please ask for a copy of the Boral Roofing guarantee before making your purchase. During transportation and installation small blemishes such as scuffing and chip marks may occur. These are not considered a production fault and will not detract from the performance of the roof tile.
