

# Terracotta Tiles

## TECHNICAL DATA SHEET

## Swiss™

Based on a bold European design, the Swiss Terracotta roof tile is ideal for modern and Mediterranean style homes, and is as durable as it is stylish.

Swiss terracotta roof tiles interlock at the head and side lap and are laid in a straight bond pattern. To ensure maximum weather proofing the nail hole for tile fixing has been designed in the batten lug on the underside of the tile and is unique to Boral Roof Tiles.

For further fixing details refer to Roof Installation Section.

NSW, ACT, VIC & SA

### Timeless Look for Traditional Houses

The timeless-looking tile that suits traditional-looking houses regardless of whether they're brand new or 50 years old.

### Permanent Colour

Terracotta tiles are also kiln fired at high temperatures to give permanent matt or gloss finishes.

### 50 Year Warranty\*

Built to last and to withstand harsh climatic conditions and marine environments.

#### Specification Notes

Roofing material shall be Boral Terracotta Swiss (Please specify a colour) \_\_\_\_\_  
Sarking shall be Boral Sarking Extra Heavy Duty

Important Information: Product information contained in this leaflet is correct at the time of printing however is subject to change without notice. \*50 year limited warranty that the Terracotta Roof Tiles are manufactured in accordance with Australian Standards Association AS 2049. The warranty will not apply if the roof tiles (a) have not been installed in accordance with AS 2050 (b) have been affected by colour change, shade variation or glaze weathering; or (c) have been damaged by roof traffic or chemical treatments, coating or cleaners or by falling items, pollution, storm or hurricane. Proof of purchase and other information required by Boral must be provided. See [www.boral.com.au/roofing-masonry-terms-quotation-supply](http://www.boral.com.au/roofing-masonry-terms-quotation-supply) for full terms and conditions. Some photos featured in this brochure are artist's impressions of how Boral roof tiles will look on a roof. Some images are computer generated. Please ensure you view a tile display before making a final decision. Colours shown are indicative only and should not be used for final selection. Colours are subject to change without notice. Check print date prior to product selection. Roof tile colours may vary in shades throughout the manufacturing process therefore it is important that roof tiles are blended consistently across the roof. At Boral Roofing, all tiles are manufactured to the requirements of Australian Standard 2049 Roof tiles. Please ask for a copy of the Boral Roofing guarantee before making your purchase. During transportation and installation small blemishes such as scuffing and chip marks may occur. These are not considered a production fault and will not detract from the performance of the roof tile.
