

# Boral Marulan South Operations Newsletter

December 2017

**Boral's Marulan South Operations are pleased to present our regular newsletter for the information of our valued neighbours and wider community.**

## Marulan Kite Festival

It was with much pleasure and fun that we supported the 2017 Marulan Kite Festival.

This year we continued to work on the committee, and support the decorating and painting kites, in our local schools and preschools.

With a big thanks to Sam, our volunteer, we were also able to bring along Kite Man. Boral is a supporter of **Redkite** who provide essential support to children and young people with cancer, and their families.

Kite Man is their mascot and we were pleased to be able to bring him to the Kite Festival.

## Wombats

Sleepy Burrows Wombat Sanctuary are a not for profit organisation specialising in the management and care of wombats.

Recently Donna and Phil from the Sanctuary have supported our Peppertree quarry team in the management of a number of wombats on the quarry site.

In recognition of the team's efforts, two junior wombats

visited Peppertree late in November.

Pepper and Dusty will be in care for some time and Peppertree Quarry has taken up sponsorship of these two till they can be released.

## Boral recognised for safety and community

The last couple of months have seen Boral and the Marulan South operations recognised for safety and community initiatives.

At the beginning of September, Boral was awarded

The Health and Safety Innovation Award at the CCAA State Awards. This was for a partnership with Mack and Cesco in developing an Agitator truck with better roll stability making it safer for drivers and all road users.

The Marulan South operations continued the success in being awarded the NSW inaugural Community leadership award, for our overall approach to working with our community, not just through funds and donations of materials but being actively involved in community events and programs. We couldn't have achieved this success without our community's allowing us to be involved.

Peppertree then went on to become a finalist for safety performance at the Institute of Quarrying Australia awards in October.

## Holiday wishes

With the end of the year nearly upon us our thoughts turn to family, Christmas and the holiday period.

At all our sites, before we start a job we take five minutes to think about what could hurt us and how it can be prevented.

With that in mind, we ask that you 'Take 5'

- before you travel;
- or string those lights;
- or place decorations on the tree;
- or purchase Christmas gifts; or
- go out and party.

From the Boral teams at South Marulan, we thank you for your ongoing support and wish everyone a safe and happy Christmas.
