

The background of the slide is a photograph of a city skyline at dusk or dawn. The sky is a pale blue-grey. In the foreground, the dark, silhouetted roof of a building is visible on the left. The middle ground is filled with various skyscrapers. A prominent feature is a tall, slender tower with a yellow-lit observation deck, likely the CN Tower. To its right, a large building is under construction, with its steel framework visible and a crane attached. Other buildings with lit windows and distinctive architectural features like domes and spires are scattered across the skyline. The water of a harbor or river is visible at the bottom, with some boats and structures along the waterfront.

# Berrima Cement Works Community Liaison Group Meeting

1 April 2022

# Agenda

1. Welcome and apologies
2. Operations summary
3. Environmental works update
4. Planning and projects
5. Communications update
