

Boral Marulan South Operations

Newsletter | Issue 16 | January 2015

Boral is pleased to present this issue of the Marulan South Operations newsletter.

Welcome to our first newsletter for 2015.

Following the fun and festivities of Christmas and New Year, both of our Marulan operations will be looking to shift any extra kilos gained by competing in the "Battle of the Bulge". A number of teams including The South Marulan Shufflers, Fantastic Four and The Pepper Rocks are trying to lose weight and complete the most exercise over a 2 month long period.

In just over three weeks it looks like the teams have lost a combined weight of more than 50 kilos. One team has clocked up over 550 000 steps!

Operations at both of our sites are back to normal after a very short Christmas break.

Our Peppertree Quarry team achieved a record of daily throughput in a 12 hour period just prior to Christmas through our primary part of the operations. A gourmet BBQ will be enjoyed by the team as a reward. The challenge is now on to at least repeat the record.

We are currently recruiting for a number of casual positions at Peppertree. Details can be found on the Boral website.

We are also looking at another exciting year working with our community. The Heritage and Sustainability Parklands (HASP) Project will gain momentum as fourth year undergraduates from Canberra University develop a concept parkland and museum plan for land in Marulan over the next few months. We are looking forward to being part of the project working with the students, the community and businesses in the area in the development of the plan.

Our support of Outward Bound in the Southern Tablelands and Highlands will continue and we are finalising this year's program.

We will, as in previous years, continue to support the Tallong Apple Festival to be held on Sunday, 3rd May and the Marulan Kite Festival in October.
