

# Boral Deer Park Operations Quarry Environmental Review Committee

Updated December 2015

**The Deer Park Quarry Environment Review Committee (QERC) for quarry operations acts as a forum providing two-way communications between Boral's quarry, asphalt and concrete operations, neighbours and other key stakeholders.**

The QERC was re-formed in 2015 and replaces an Environment Review Committee that previously operated between 2010-12.

QERC members are happy to be contacted by the local community and stakeholders in regards the Boral Deer Park Operations. A list of members and contact details can be found below.

## Community members

|                  |                              |  |
