Item	Item Description	Discussion	Action
1	Introduction	Introduction and welcome Meeting agenda outline slideshow presented by Lauren Trewin	
2	Review of Minutes & Actions from last minutes.	<p>Actions to be followed up from previous meeting</p> <p>Julia Preston to follow up with local council regarding lack of attendance once first meeting date for 2018 is confirmed. Letter & invitation extended to Council with no response to date. - Completed</p> <p>Geoff to provide studies around blasting and structural damage – Ian McLeod to provide</p> <p>Lauren to take David on site to see the progress – Complete</p> <p>Fox control program for Winter to be undertaken; Results to be presented at next meeting</p> <p>Improve fencing around Dransfield Park, where people can get through into buffer area.</p>	<p>JP</p> <p>IM</p> <p>LT</p> <p>LT</p> <p>LT</p>

3	Weed Management	<p>Following works undertaken between November 2017 and March 2018:</p> <p>Fire Breaks around site perimeter slashed in November and January Weed control Blackberry, Gorse, Serrated Tussock & Pattersons Curse predominantly focused on Northern boundary Fox trapping conducted throughout March 2018. Will re-commence in Winter 2018. Slashing around upper dam, remove slime build up and excess reeds.</p> <p>Works to commence in the coming months:</p> <p>Focus on Mustard weed, Pattersons Broadleaf weeds & Thistles – boom spraying and spot spraying Slashing of Gorse areas throughout Winter Grass seeding around old tank & house area</p>	
4	Ambient Air results	<p>Ambient air data results presented with one exceedance of 4gm/m² recorded in November 2017 on Station E</p> <p>General discussion around the site's management of dust emissions from site, the limitations of the site, dust sources, control and the areas of concern. Currently investigating a sprinkler system along the road between the concrete plant and the quarry office, as often the truck traffic can generate a lot of dust. General discussions around the community feel that response to excessive dust emissions is often after the conditions have worsened can the site look to become more proactive and preventative when dry/windy weather conditions arise.</p>	
5	Blast results	<p>General information around blasting limits provided.</p> <p>Blast results since the last meeting were reviewed and were below the environmental limits for Ground Vibration and Air Overpressure.</p>	
6	Operational Activities	<p>Current crushing hours: 6am – 6:00pm daily (subject to change depending upon demand) Blasting and development continuing towards Northern & Western boundaries Dust suppression – Trialling different foggers on 3 conveyors installed last week Sales have been very busy and volumes are expected to remain consistent in the upcoming months Overburden dump reprocessing finished in February, will recommence in Sept 2018</p>	

7	General Business / Community Concerns	Positive feedback on the slashing works completed in the drain on the Southern buffer areas	
8	Next Meeting
